

Danielle Lemons, Vice President of Operations at DirecTech Connect, Leads Company's Expansion Across Tennessee

Former Avnet operations manager who was responsible for forecasting \$1 billion in annual revenue is overseeing managed services and client operations as the Nashville company grows statewide

Nashville, Tennessee Oct 27, 2026 ([Issuewire.com](https://www.Issuewire.com)) - DirecTech Connect, a Tennessee provider of business phone systems, managed IT services, websites and digital marketing, is expanding across Tennessee under the leadership of Vice President of Operations Danielle Lemons. Since joining

DirecTech Connect in November 2024, Danielle Lemons has overseen the company's managed services for VoIP and telecommunications, managed IT for small and medium-sized businesses, and client project delivery.

Danielle Lemons has spent more than 20 years leading operations and delivery teams in technology. She spent nine years at Avnet Technology Solutions, one of the world's largest technology distributors, where she rose to Customer Operations Manager. In that role she was responsible for forecasting \$1 billion in annual revenue, tracking every order from sale through shipment and billing, and led the customer operations team that supported it. She later led technical project delivery at Tragic Media in San Diego and at Blattner Tech Digital Agency in Nashville, where she served as Project Management Operations Director and Senior Manager of Small and Medium Business Services, building the project management standards and leading the development teams behind the agency's client work.

Over her career, Danielle Lemons has delivered hundreds of technology and digital projects, at times managing as many as 40 active client projects at once. She began her career in the Army National Guard as an explosive ordnance disposal (EOD) specialist.

"Every business we serve should have technology that simply works and a team that answers when they call," said Danielle Lemons. "My priorities are faster response times, one accountable point of contact for every client, and systems that keep their phones, networks and websites running so they can focus on their business. Tennessee businesses deserve a technology partner that delivers on what it promises."

"Danielle runs the part of our business clients feel every day: whether their phones work, whether their questions get answered and whether their projects land on time," said Frank Amato, President of DirecTech Connect. "As we grow across Tennessee, she's the reason I'm confident we can add clients without losing the service they signed up for."

Danielle Lemons is based in Middle Tennessee. Her biography, headshots and media kit are available at <https://daniellelemons.com/press>.
