

Dr. Sapna of Manipal Institute of Technology Concludes Successful Post Doctoral Research Fellowship Visit to Europe

Warsaw, Poland Oct 28, 2026 ([IssueWire.com](https://www.issuewire.com)) - In an era defined by international academic collaboration and cross-border scientific inquiry, Dr. Sapna of the Manipal Institute of Technology, Bengaluru, has stepped onto the global stage. As a recipient of the prestigious **Post Doctoral Research Fellowship - Europe 2026**, Dr. Sapna represented India in a high-profile faculty abroad program spanning three European nations: Poland, Finland, and Germany.

The landmark fellowship program—running from October 14th to 23rd, 2026—was jointly powered by prominent international institutions, including the **Raise Global Institute of Frontiers, UK**, and **MIT Square Global Technologies, London**, in active partnership with **Casimir Pulaski Radom University** in Poland.

Strengthening International Research Partnerships

Over the course of the rigorous itinerary, Dr. Sapna engaged with European academics, researchers, and institutional leaders to exchange insights and foster cross-border cooperation. As a visiting Postdoctoral Research Fellow at Casimir Pulaski Radom University, her visit focused on advancing joint research initiatives, exploring innovative pedagogical methods, and establishing robust academic linkages between Indian and European higher education institutions.

The program provided a dynamic platform for intellectual exchange, allowing scholars to immerse themselves in diverse academic ecosystems and lay the groundwork for future cooperative projects in

science, technology, and higher education.

A Milestone for Manipal Institute of Technology, Bengaluru

Dr. Sapna's successful completion of the European visit highlights the caliber of global research talent nurtured at the Manipal Institute of Technology, Bengaluru. Her participation not only elevates her personal academic profile but also reinforces the institution's commitment to fostering globally competitive researchers.

As she returns to India, the collaborative frameworks established during her visits to Poland, Finland, and Germany are expected to yield enduring partnerships, paving the way for future joint publications, faculty exchanges, and shared scientific breakthroughs.
