

Global Real Estate Pro Expands Across Europe with Strategic Acquisition of European Domain Portfolio

Strengthening International Presence and Creating a Unified Global Real Estate Platform

Bergen County, New Jersey Oct 8, 2026 ([Issuewire.com](https://www.issuewire.com)) - Global Real Estate Pro, an international full-service real estate brokerage founded by **Peter Ingrassellino**, today announced a significant expansion of its global digital infrastructure through the acquisition and development of multiple European domain registrations. The initiative marks another milestone in the company's strategy to build a seamless international real estate network connecting buyers, sellers, investors, developers, attorneys, and real estate professionals across Europe and North America.

The newly acquired European domains will support localized marketing, multilingual content, international referral partnerships, and country-specific real estate services designed to meet the growing demand for cross-border property transactions and global investment opportunities.

"As international real estate activity continues to accelerate, establishing a strong digital presence throughout Europe is a natural evolution of our vision," said **Peter Ingrassellino, Founder and Broker of Record of Global Real Estate Pro**. "These European domains provide the foundation for a more

localized and accessible experience while maintaining the strength of a unified global brand. Our goal is to make international real estate ownership and investment more transparent, efficient, and accessible than ever before."

"Real estate has become a truly global business, and clients expect seamless access to trusted professionals regardless of borders," added **Carlo Bardi, Managing Partner of Bardi & Partners in Florence, Italy**. "Global Real Estate Pro's European expansion demonstrates a long-term commitment to serving international buyers, sellers, and investors through strategic local partnerships backed by a global platform. We are proud to support this initiative and help create new opportunities for clients seeking access to European real estate markets."

The European expansion supports Global Real Estate Pro's growing network of affiliated professionals and strategic partners throughout Italy and other key European markets. The initiative complements the firm's international property acquisition programs, relocation services, investment consulting, and cross-border referral network, including its recently announced collaboration with **Bardi & Partners**, a respected Florence-based law firm assisting international clients with Italian real estate transactions and legal services.

The new domain infrastructure will allow Global Real Estate Pro to:

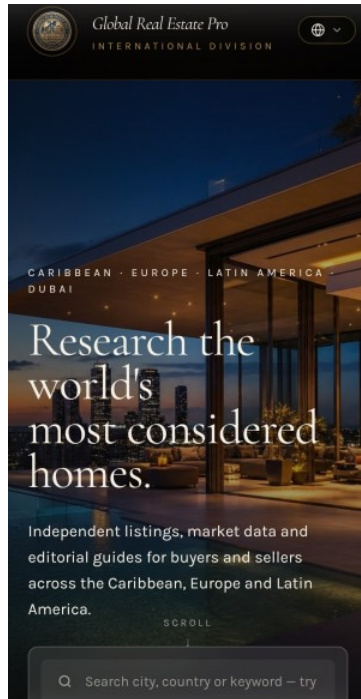

- Expand localized market information and property marketing throughout Europe.
- Strengthen relationships with European real estate professionals, developers, attorneys, and service providers.
- Enhance international referral opportunities for agents and brokers.
- Provide multilingual resources for buyers, sellers, and investors.
- Increase visibility for cross-border investment and relocation services.
- Further establish the company as a global platform connecting real estate opportunities across continents.

As Global Real Estate Pro continues its international growth strategy, the company remains focused on building trusted partnerships, expanding market access, and delivering innovative solutions for clients seeking residential, commercial, luxury, and investment properties worldwide.
