Texas City, Texas Oct 5, 2026 ([Issuewire.com](https://www.issuewire.com)) - IssueWire has launched the October edition of its digital business magazine and opened feature opportunities for the **November 2026 edition**. Businesses, entrepreneurs, and organizations can present company developments, leadership perspectives, professional milestones, and business stories through its [Digital PR Magazine](#) feature options.

The October edition continues the magazine's monthly coverage of businesses and the people behind them. Its feature formats include written business stories and curated interviews in sections such as **Client Stories** and **Client Talk**.

IssueWire is also inviting interested businesses to explore feature options for the November edition through **October 30, 2026**. Participants can use these formats to provide context about their work, explain a recent development, or share the perspective behind a company milestone.

"A business story can be more useful to readers when it explains the people and decisions behind an announcement," said an IssueWire spokesperson. "Our magazine formats give participating businesses space to share that context as we prepare the November edition."

Digital PR Magazine features are **package-based placements**. Businesses should review the available formats, submission details, and package terms before selecting a feature option.

During its October Business Spotlight period, IssueWire is providing **15% off eligible Digital PR Magazine feature packages** with code **MAGOCT26** through **October 30, 2026**.

Businesses and individuals can review magazine feature options and submission details at <https://magazine.issuewire.com/>.

About IssueWire

[IssueWire](#) provides press release writing and distribution services, editorial support, custom PR solutions, and business magazine feature opportunities. Its services help organizations communicate company news, professional perspectives, and brand stories through digital channels.
