

Para Ella Extends Premium Ladies Salon Services Until Midnight in Dubai

Late-evening appointments give working women and busy residents more flexibility for hair, nail, lash and skincare services

Dubai, United Arab Emirates Oct 1, 2026 ([Issuewire.com](https://www.Issuewire.com)) - Para Ella Hair & Nails Ladies Salon is offering appointments until midnight every day at its Azizi Riviera location, giving women in Dubai greater flexibility when arranging personal-care services around work, travel and family commitments.

The salon operates daily from 10:00 am to midnight at Azizi Riviera 9, Shop 4, Meydan One Street. Its extended hours are designed for clients who may find conventional daytime schedules difficult, including working professionals, cabin crew and women who prefer evening appointments.

Women searching online for a [beauty salon near me](#) often want several services available in one private and convenient location. Para Ella brings together hair colouring and styling, hair extensions, manicures and pedicures, lashes, brows, waxing, massage and Guinot Paris facial services in a ladies-only environment.

The wide service range also responds to customers comparing [Hair salon near me](#) and looking to complete multiple appointments during a single visit. Clients can consult the salon about combining compatible treatments according to availability, service duration and individual requirements.

Privacy is central to the salon's operating model. Para Ella is a 100% ladies-only space designed to give women a calm setting in which to discuss their preferences and receive services from trained professionals. The salon's late hours extend this private experience into the evening without changing its women-only positioning.

Appointments can be requested online or through WhatsApp. The salon recommends checking treatment duration and availability in advance, particularly when combining several services or booking later evening times.

Extended operating hours can change how clients organise regular beauty maintenance. Hair colour, extension work, nail services and facial treatments may require more time than a short appointment, and fitting these services into a traditional working day can be difficult. By remaining open until midnight, Para Ella gives clients a wider window in which to choose an appointment that works with their personal routine.

The salon's service structure also supports clients who prefer to plan their beauty appointments in advance. A woman may schedule hair colour on one visit, follow it with nail care on another day and maintain lashes or brows at regular intervals. Having these services available in one location makes it easier to build a consistent routine while communicating preferences to the same salon team.

Hair services include cuts, blow-dries, styling, colour, balayage, ombre and highlights. Para Ella also provides ring-technique hair extensions that are applied without glue or heat bonding. Because hair services vary in complexity and duration, clients are encouraged to explain their current hair condition and intended result when requesting an appointment.

Nail clients can choose from manicure and pedicure services, gel and acrylic options, French and Russian manicure styles, cat-eye finishes and nail extensions. Lash and brow appointments include classic, Russian, mega-volume and Kim K lash sets, along with lash lifting, brow lamination, tinting, threading and styling. These options allow clients to select individual services without requiring them to purchase a complete package.

The salon's skincare menu includes Guinot Paris treatments such as Hydradermie Lift, Lift Summum, Hydra Clean and hydrating facial options. Massage and waxing services add further choices for women who want to coordinate personal-care appointments within the same private setting. Treatment suitability, timing and expected maintenance should be discussed with the salon before booking.

Convenience is not limited to opening hours. Para Ella provides direct booking through its website and

WhatsApp, enabling clients to ask about prices, service duration and availability before travelling to the salon. This is particularly useful for longer appointments, combined treatments and clients visiting Azizi Riviera from other Dubai neighbourhoods.

The salon's **4.9 Google rating** and more than **200 reviews**, as displayed on its website, indicate substantial customer feedback across its services. Para Ella directs visitors to its Google Business Profile to read reviews directly, allowing potential clients to consider public experiences alongside service information before making a booking decision.

By combining extended hours with a broad service menu and a ladies-only environment, Para Ella is responding to a practical need in Dubai's beauty market. The aim is not simply to keep the doors open later, but to make professional salon services more accessible to women whose schedules do not fit conventional appointment times.

Late appointments can also help clients prepare for travel, professional commitments and celebrations without using a full working day. A client planning several treatments can ask the team to confirm the order and duration of services before arrival. This planning is important because hair colour, extensions, facials and detailed nail work require different time allocations and cannot always be added to a booking at short notice.

Para Ella continues to present its hours, service information and booking routes clearly through its website. Women can review available categories, browse examples of salon work and contact the team directly. This combination of digital access and extended in-salon availability gives clients a practical way to research, plan and manage appointments while preserving the privacy of a ladies-only experience.
