

RENOVA MALI CONSTRUCTION: Construction Excellence in Mali

Based in Bamako, RENOVA MALI CONSTRUCTION stands out as a key player in the construction and public works (BTP) sector, specializing in modern house plans and construction site management.

Based in Bamako, RENOVA MALI CONSTRUCTION stands out as a key player in the building and public works (BTP) sector. Specializing in the design of modern house plans and the comprehensive management of construction projects, the company combines architectural innovation with technical rigor to bring its clients' visions to life.

One of RENOVA MALI CONSTRUCTION's greatest strengths lies in its ability to design personalized modern house plans, adapted to the local climate and living environment, while incorporating contemporary and sustainable architectural standards.

Comprehensive Expertise: From Blueprint to Realization

Whether for private residences, residential buildings, or more complex infrastructure, RENOVA MALI CONSTRUCTION intervenes at every stage of the project:

Studies & 3D Design: Development of architectural plans, 3D modeling, and structural calculations.

Construction & Renovation Works: Site management, execution, and supervision ensuring compliance with technical standards and deadlines.

Consulting & Project Management: Cost estimation, quantity surveying, and technical assistance.

"Our goal at RENOVA MALI CONSTRUCTION is to provide every client with a solid, functional, and aesthetic structure, custom-built to last."

Committed to the Future of Construction in Mali

Thanks to a complete mastery of modern engineering tools and a strong field presence, RENOVA MALI CONSTRUCTION continues to grow by offering innovative solutions tailored to the needs of both individuals and professionals.
