

Silver Circle Pets Expands Its Pet Stroller Collection to Make Everyday Adventures Easier

Silver Circle Pets is helping pet parents enjoy more comfortable outdoor experiences with its diverse collection of high-quality pet strollers.

London, England Oct 22, 2026 ([Issuewire.com](https://www.issuewire.com)) - Silver Circle Pets is helping pet parents enjoy more comfortable outdoor experiences with its diverse collection of high-quality pet strollers. Featuring recognised brands such as Ibiyaya, Petique, and InnoPet, the collection offers practical solutions for families looking to travel, walk, and explore with their beloved companions.

A pet stroller can make a meaningful difference for older dogs, pets with limited mobility, and animals that struggle with long walks. It also provides a convenient way to take dogs and cats on everyday outings without requiring them to walk the entire distance.

A Pet Stroller for Different Needs and Lifestyles

Every pet has unique requirements, and Silver Circle Pets offers a range of designs to help owners find an appropriate match. From compact, foldable models to durable strollers designed for more demanding outdoor adventures, the collection supports different lifestyles and mobility needs.

The AirBuggy DOME 3 Brake is an option for owners who value convenient storage and a slim-fold design. For additional practical features, the InnoPet Mamut offers accessories such as storage compartments, cup holders, and rain protection, depending on the configuration.

Pet parents seeking a more robust design can explore the InnoPet Hercules and InnoPet Premium Comfort, formerly known as Ibiyaya The Beast. These heavy-duty options are worth considering for outdoor use where a sturdy design is important.

Accessibility is another key consideration. The Ibiyaya Grand Cruiser has a compatible ramp available separately, while the Petique Apollo features a built-in ramp to help pets enter and exit more easily.

Introducing Buddies on the Go!

Silver Circle Pets is also excited to offer its Buddies on the Go! range, designed for pet parents who need additional durability and support. With higher weight capacities than comparable models in the same price range, selected strollers can accommodate larger dogs or multiple pets within their specified limits.

This variety allows customers to compare designs, capacities, and features before choosing a stroller that suits their companion and daily routine.

Helping Pet Parents Make Informed Choices

Choosing the right pet stroller involves more than appearance. Owners should consider their pet's size, weight, mobility, intended terrain, storage requirements, and the stroller's safety features.

Silver Circle Pets also provides helpful blog resources covering stroller selection, three-wheel versus four-wheel designs, car boot compatibility, and securing pets safely during outings. These guides help customers understand their options and make more informed purchasing decisions.

Frequently Asked Questions

1. Who can benefit from a pet stroller?

Senior dogs, pets with limited mobility, and animals that tire easily may benefit from a suitable stroller.

2. Can a pet stroller accommodate larger dogs?

Yes, selected models offer higher weight capacities. Always verify the maximum load and interior dimensions before purchasing.

3. Are pet strollers suitable for cats?

Many models can accommodate cats when their dimensions, ventilation, and safety features are appropriate.

4. Where can customers explore the collection?
