Baltimore, Maryland Oct 13, 2026 ([Issuewire.com](https://www.issuewire.com)) - Social Booster Up, a leading global creator platform and traffic exchange suite, has officially announced the launch of its web-based ecosystem

designed to help creators safely expand their digital reach. Built as a secure, peer-to-peer alternative for multi-platform engagement, Social Booster Up empowers users to grow their visibility across TikTok, Instagram, YouTube, Facebook, and X (Twitter) organically.

As third-party platform algorithms continue to evolve, content creators face increasing challenges in establishing initial visibility. Social Booster Up addresses this by providing a community-driven exchange network where members earn digital points through authentic community tasks and spend those points to power their own promotional campaigns.

Unlike traditional automated bot services, Social Booster Up emphasizes account safety and network integrity. The platform strictly prohibits automated bots and script manipulation, requiring only public URLs while never requesting personal social network passwords, security recovery codes, or browser cookies.

In addition to its core traffic exchange engine, Social Booster Up features a comprehensive, free Social Media Creator Suite. Creators can access utility tools directly on the platform, including a Viral Hashtag Generator, Engagement Rate Calculator, Handle Brainstormer, Bio Font Styler, and YouTube Title & Tag Optimizer. To enhance user engagement, the platform also incorporates daily rewards, login streaks, scratch cards, and a daily spin-to-win wheel.

"Our goal is to give independent creators and digital entrepreneurs a reliable, fair, and secure environment to boost their content visibility," said Mary Gilligan, founder of Social Booster Up. "By fostering real peer-to-peer interactions and building powerful free tools right into our suite, we make audience growth accessible to everyone."

Social Booster Up is live and accessible globally. Creators, brands, and website owners can sign up for free, claim starter bonus points, and explore community campaigns by visiting <https://socialboosterup.com>.
