

STRlight Steps into a New Era With New Singles

STRlight brings melody and individuality to his newly released singles. The songs reveal a personal electronic sound shaped by independent production and real feeling.

Dongguan, Oct 7, 2026 ([Issuewire.com](https://www.issuewire.com)) - One of the most promising names in the industry, **STRlight**, has released two brand new singles. The musician's story is rooted in independent creativity and a desire to connect with listeners through electronic music. With two studio albums, 3 million Spotify streams, and an impressive 200 million streams across mainland China, the artist has built a growing international presence.

However, through the immense popularity in the international space, the artist is still focused on creating music that comes from a personal space. The latest released songs are the truest examples of it.

The newest releases are '[Fairytale \(??\)](#)' and '[Uncharted](#)'. These tracks continue to showcase the artist's electronic direction, where melody and emotion sit at the heart of the production.

'Fairytale (??)' is released with Lightfighter and Mitsucaster, and it places its focus on melody and atmosphere. The composition reflects the artist's interest in creating music that communicates beyond a straightforward dancefloor experience. On the other hand, 'Uncharted,' featuring JAMES.C, DJ MIGA, and Livingston Crain, moves into another side of **STRlightT**. Its composition is built around the energy and movement associated with contemporary EDM.

After these two releases, the artist is now preparing to promote the new album 'Ever Lasting'. Listen to his songs on Spotify along with previous releases like '????
