Bhopal, Madhya Pradesh Oct 23, 2026 ([IssueWire.com](https://www.issuewire.com)) - VIT Bhopal University will host Health Hackathon 3.0 on 28 and 29 January 2027. A pre-event workshop will take place on 27 January 2027.

VIT Bhopal is collaborating with the Whiting School of Engineering at Johns Hopkins University for this event. Its full title is “Health Hackathon 3.0: Global Health Access Innovation Challenge – Next Generation.”

New Ideas for Better Healthcare

The event has a clear aim: it seeks innovative ideas that can improve healthcare accessibility for more people, reduce costs, and enhance overall efficiency. Participants are invited to propose actionable solutions to real-world healthcare challenges.

Key focus areas for submissions include:

- Low-cost tools and technologies for healthcare delivery.
- New ways and platforms to support mental health.
- Application of Artificial Intelligence (AI) in healthcare solutions.
- Tools leveraging health data analytics to identify and predict health risks.

A Chance to Share and Build Ideas

Health Hackathon 3.0 invites innovators, students, and researchers to present their concepts and refine them further. The emphasis is on practical, high-impact solutions designed to reach underserved communities and individuals facing healthcare access barriers.
