Al-Rabiya introduces Luminous PPF Prime and Luminous's online warranty registration to UAE installers

As the official Luminous distributor in the UAE, Al-Rabiya is bringing installers a new professional-grade TPU paint protection film, backed by a manufacturer's warranty and a fully digital registration system.

Dubai, United Arab Emirates Nov 4, 2026 (Issuewire.com) - Al-Rabiya Auto Accessories, a leading supplier of automotive care, detailing, and paint protection products in the UAE and the Middle East, today announced the availability of Luminous PPF Prime, a new thermoplastic polyurethane (TPU) paint

protection film, alongside Luminous's new online PPF warranty registration system. As the official Luminous distributor in the UAE, Al-Rabiya is making both available to professional installers across the country.

The launch adds a dependable everyday film to the Luminous range Al-Rabiya already supplies, and gives UAE installers a more structured way to register and manage warranties on every installation.

Introducing Luminous PPF Prime

Luminous PPF Prime is built for installers who need reliable everyday performance and consistent installation results. It uses a high-quality TPU base with a durable topcoat, delivering stable optical clarity and a clean, glossy finish that preserves the vehicle's original factory appearance.

Key features include:

- Heat-activated self-healing surface that reduces the appearance of light scratches and swirl marks
  • High-quality TPU base film for strong clarity, flexibility, and resistance to everyday road hazards
  • Non-yellowing polyacrylate adhesive for clean, clear bonding that stays discoloration-free over time
  • Glossy finish that adds depth while keeping the paint's original look
  • 7.5 mil total thickness, supplied in 1.52m x 15m rolls
  • Service temperature range of -40°C to 100°C (-40°F to 212°F), suited to demanding heat conditions

Every installation performed by an authorized Luminous installer is backed by a manufacturer's warranty covering manufacturing defects and adhesive failure.

Online warranty registration for every installation

Alongside PPF Prime, Luminous has introduced a fully digital PPF warranty registration system. Certified installers register the warranty for each Luminous PPF installation online, so every warranty is recorded and stored securely within the Luminous system.

No warranty claim will be considered without a completed online registration. For installers, that means a clearer process, faster and more transparent claim handling, and a stronger warranty proposition to offer the car owners they serve.

Why this matters in the UAE market

The UAE's paint protection film market was valued at approximately USD 14 million in 2025, according to Ken Research, and is expected to keep growing. As more installers compete for the same customers, warranty credibility and installer accountability are becoming real differentiators, especially in a market where buyers increasingly expect warranty-backed film and certified installation.

PPF Prime also widens the choices available to installers. Alongside Luminous Superior, Ultimate, Matte, and Phantom PPF, it gives workshops an additional professional-grade option for protection needs and budgets that call for dependable everyday coverage.

"PPF Prime gives our installers a film they can rely on for everyday work, and the warranty registration system makes the after-sales side just as dependable," said Abedalrahman Alwaqfi, Sales Manager at Al-Rabiya Auto Accessories. "In a competitive market, installers need more than a good film. They need a warranty process their customers can trust, and that is what this launch delivers."

Supporting installers beyond the film

Installers who purchase through Al-Rabiya can also request free PPF samples to test performance before committing to stock, order directly through Al-Rabiya's online store, and pursue brand certification with Luminous through Al-Rabiya's certification support.

"We want installers to have everything in one place: proven film, a warranty that backs their work, and a supplier that supports them as they grow," Alwaqfi added.

About Al-Rabiya Auto Accessories

Al-Rabiya Auto Accessories is a leading distributor of automotive care, detailing, and paint protection solutions in the UAE and the Middle East. The company represents a portfolio of globally recognized brands, providing automotive professionals with access to ceramic coatings, paint protection films (PPF), window tint, detailing chemicals, and detailing accessories.

With a strong focus on quality, reliability, and industry expertise, Al-Rabiya continues to support automotive businesses across the region with innovative products, technical knowledge, and consistent supply.

About Luminous

Founded in 2014, Luminous is a U.S.-based premium automotive care brand offering waxes, cleaning chemicals, paint protection films, window films, and detailing accessories, engineered for professionals, businesses, and automotive enthusiasts worldwide.

Explore Luminous PPF Prime

UAE Installers can explore Luminous PPF Prime and order directly through the Al-Rabiya online store, or request a free PPF sample to test the film on a real job before stocking.
