Antonio Soave Announces Super Soccer Kids™: The First Mission, Coming Soon to Amazon

Four soccer-loving friends put their skills to the test when a giant robot threatens to drain a city's power.

SUPER SOCCER KIDS™
The First Mission
By Antonio J. Soave

Olathe, Kansas Nov 6, 2026 (Issuewire.com) - Author Antonio J. Soave announces the upcoming release of *Super Soccer Kids™: The First Mission*, a children's adventure about four friends whose soccer skills become superpowers. Published by Capistrano Publishing, the book is coming soon to Amazon.

Tony, Nigel, Gino, and Mary spend their afternoons practicing on the field behind their school. Their classmates know them as good soccer players and supportive teammates. Then one afternoon, their watches light up with a call for help from Central Soccer Command, and the four friends trade their school clothes for superhero suits.

Coach Rafael sends them to Penalty-Opolis, where a giant robot named Dr. No Goal is draining the city's electricity. With Amos, their robotic guide dog, at the controls of the Super Soccer Jet, the team races to help. Captain Tony has a shot powerful enough to knock down obstacles. Nigel can sprint past danger in a flash. Gino, the fearless goalkeeper, can leap into the air to block attacks. And Mary, the Super Soccer Girl, can place a kick exactly where it needs to go. To stop the robot, they'll have to work together.

The adventure brings teamwork, fair play, and kindness off the soccer field and into the team's first mission. *The First Mission* could make a great Christmas gift for young readers, families who enjoy reading together, and soccer fans who love a superhero adventure.

The announcement follows the recent release of Soave's *Ice Time*, available now on Amazon.

Purchase *Ice Time* on Amazon

About Antonio J. Soave

Antonio J. Soave is an author, longtime soccer player and coach, and founder of the Global Foundation for Peace through Soccer. The foundation uses the game to bring young people together across cultures and expand access to soccer through youth camps and clinics. Soave also hosts *The Soccer Academy*, a television show that has aired on LATV and can be watched on YouTube. His experience as a player and coach is reflected in the way the four friends encourage each other and use their skills to help their community.
