Custom Closets A&G Designs Celebrates 20 Years of Custom Closet Design on Long Island

Family-owned West Babylon company marks two decades of designing, manufacturing, and installing custom closet systems for homeowners throughout Long Island and the surrounding region.

Westbury, New York Nov 20, 2026 (Issuewire.com) - WEST BABYLON, NY — November 2026 — Custom Closets A&G Designs, a family-owned custom closet design and manufacturing company based in West Babylon, New York, is celebrating 20 years of helping homeowners create functional, personalized storage spaces.

Founded in 2006, Custom Closets A&G Designs has grown from a locally established business into a provider of custom closet systems and home organization solutions serving Nassau County, Suffolk County, Queens, New York City, and Connecticut.

For two decades, the company has specialized in designing, manufacturing, and installing custom walk-in closets, reach-in closets, wardrobe systems, home offices, pantries, laundry rooms, mudrooms, and other personalized storage solutions.

Locally Designed and Manufactured on Long Island

Unlike companies that rely on standardized closet configurations, Custom Closets A&G Designs develops each project around the homeowner's space, storage requirements, and design preferences.

The company's custom closet systems are designed and manufactured locally at its West Babylon facility, allowing greater attention to detail, flexibility in materials and finishes, and coordination throughout the design and installation process.

From spacious walk-in dressing rooms to compact reach-in closets, projects can incorporate adjustable shelving, custom drawers, hanging sections, integrated lighting, shoe storage, and carefully selected hardware.

Serving Nassau and Suffolk County Homeowners

Over the years, Custom Closets A&G Designs has completed residential storage projects throughout Long Island, including communities such as Manhasset, Port Washington, Roslyn, Sands Point, Plainview, and the Hamptons.

The company also collaborates with homeowners, interior designers, and trade professionals to create custom closet and storage solutions suited to each property's layout and architectural style.

Celebrating 20 Years of Personalized Service

As Custom Closets A&G Designs celebrates its 20th anniversary, the company remains committed to the principles that have guided its work since 2006: personalized design, quality materials, local manufacturing, and professional installation.

Homeowners interested in exploring custom closet solutions can schedule a free in-home design consultation to discuss their space, organization needs, and available design options.
