Dr. Jonathan A. Adler Marks More Than Three Decades of Pioneering Eye Care in Sarasota–Manatee

Board-Certified Ophthalmologist and Founder of Adler Eye Institute Combines Advanced Technology With Personalized Treatment for Cataracts, Glaucoma, LASIK, and More

Sarasota, Florida Nov 9, 2026 (Issuewire.com) - Jonathan A. Adler, MD, a Board-Certified Ophthalmologist and founder of Adler Eye Institute, has served patients across Manatee and Sarasota counties since 1991. Over more than three decades, he has built a reputation for clinical excellence and innovation. He was the first ophthalmologist to perform LASIK in Manatee County and the first in the area to implant the new generation of multifocal intraocular lenses during cataract surgery. These advances have helped countless patients reduce or eliminate their reliance on glasses and contact lenses.

Adler Eye Institute provides comprehensive surgical and non-surgical eye care, pairing state-of-the-art technology with a highly personalized approach. Every treatment plan is tailored to the patient's vision goals, eye health, and lifestyle. This individualized philosophy has made the practice a trusted resource for both routine and complex ocular conditions.

Care at the practice begins with a thorough consultation, followed by advanced diagnostic testing to evaluate each patient's unique ocular characteristics. "We start with a consultation, then engage state-of-the-art technology to address any issues and develop a plan to ensure your eyes remain healthy," the practice notes.

As a leading eye doctor in Bradenton, Dr. Adler offers a broad range of services, including cataract surgery, LASIK, medical and surgical glaucoma treatment, nutritional therapy for macular degeneration, eyelid surgery for entropion and ectropion, and removal of pterygium and pinguecula. Patients also have access to a full-service optical boutique. Anyone noticing changes in their vision or eye health is encouraged to schedule a consultation to explore the most appropriate treatment options.

Dr. Adler is affiliated with Manatee Memorial Hospital, Lakewood Ranch Medical Center, HCA Florida Blake Hospital, Premier Surgery Center of Sarasota, Gulf Coast Surgery Center, and outpatient surgery centers throughout Manatee and Sarasota counties. These affiliations ensure continuity of care and give his patients access to high-quality surgical facilities.

His academic foundation is equally distinguished. Dr. Adler earned a Bachelor of Science in Natural Science and Mathematics, Cum Laude, from Muhlenberg College in 1982, followed by a Master of Science in Physiology and Biophysics from Georgetown University in 1983. He received his Medical Degree from Georgetown University School of Medicine in 1987, completed his medical internship at the Medical College of Georgia in 1988, and finished his ophthalmology residency at Georgetown University Medical Center in 1991.

Certified by the American Board of Ophthalmology, Dr. Adler is a member of the American Academy of Ophthalmology and the International Society of Refractive Surgeons. He also serves as a Board Member on the Manatee Memorial Hospital PHO Committee and the Manatee County Medical Society, reflecting his ongoing commitment to advancing eye care and supporting the local medical community.

Through innovation, experience, and patient-centered care, Dr. Jonathan A. Adler continues to set the standard for ophthalmology in the Sarasota–Manatee region, helping patients protect their sight and see the world more clearly.
