Evo Lawn & Landscape Provides Full Service Landscape Maintenance in Northbrook, IL

The company is accepting Northbrook homeowner inquiries for Evo Premium, an April through November plan that bundles weekly mowing, planting bed care, lawn treatments, and seasonal cleanups.

Northbrook, Illinois Nov 18, 2026 (Issuewire.com**)** - Evo Lawn & Landscape has opened enrollment for Evo Premium, its 2027 residential landscape maintenance program in Northbrook, Illinois 60062. The program puts weekly mowing, landscape bed care, lawn treatments, and spring and fall cleanups under one eight month agreement. Evo Premium starts at **$550 per month**, or $4,400 for the season.

What one maintenance company means for homeowners

Evo manages the calendar. Homeowners can count on regular visits for the lawn and planting beds while the company schedules treatments, aeration, overseeding, and cleanups throughout the season. That saves homeowners from arranging each seasonal job as it comes up.

The crew gets to know the property over repeat visits, from where leaves collect to which areas need

closer attention. If a patch of grass starts thinning or a bed needs attention, the homeowner has one point of contact who already knows the yard. Evo also confirms the monthly rate and covered work before service begins, so homeowners can plan for the season.

What Evo Premium includes from April through November

Before service begins, Evo Lawn & Landscape reviews the lawn, planting beds, and equipment access to confirm which areas the crew will maintain.

The season begins with spring cleanup, dethatching, and the first core aeration. On weekly visits, the crew mows and trims the lawn, edges sidewalks and driveways as needed, and clears clippings from included paved areas. The program also covers recurring weeding and edging of designated planting beds, five fertilizer applications, and unlimited spot treatments for lawn weeds as needed.

In fall, Evo returns for a second core aeration, overseeding, and cleanup in the agreed areas. Illinois Extension lists aeration and overseeding among its fall recommendations for cool season lawns. Illinois Extension fall lawn care guidance

2027 enrollment for Northbrook homeowners

Homeowners can start enrollment by submitting their property address online or by calling or texting **(224) 777-0061**. Evo Lawn & Landscape confirms route availability and the areas covered before service begins. Evo Premium seasonal landscape maintenance in Northbrook
