founder Technologies opens pre-registration for founder App, an all-in-one platform for founders

One app with many services, from a professional network and jobs board to an incubator, an accelerator and website hosting, with more launching as members join.

Cochrane, Alberta Nov 16, 2026 (Issuewire.com) - founder Technologies Inc. today opened pre-registration for founder App, an all-in-one platform where founders connect, collaborate, and grow. Founders can join now at founderapp.app and will be the first to hear when the app launches on iPhone and Android. The announcement marks the start of Global Entrepreneurship Week (November 16–22).

Founders today use separate tools to network, hire, talk to their team, learn, sell, run a website, and share their news. founder App brings these together in one place, from a founder's first idea to a growing company.

Here’s a preview of some of the services offered on the platform:

- **Network, Groups and Messaging:** a professional profile, industry groups with events and member directories, and chats with audio and video calls.
- **Jobs and Courses:** a curated jobs board with one-tap apply, and courses from industry experts with certificates.
- **Marketplace and Feed:** a place to buy and sell professional products and services, and a personalised feed of articles and newsletters.
- **Incubator and Accelerator:** support for founders turning an idea into a company and for startups ready to grow.

founder App will reveal each service on its social channels between November 20 and December 20, 2026.

"Founders spend too much time switching between tools and not enough time building," said founder Technologies Inc. "We built founder App so the people starting companies have one place to begin and keep growing. It’s why our slogan is “founded here.”

Availability: founder App is open for pre-registration now at founderapp.app. The launch date will be announced to pre-registered founders first.
