John J. Breiling Orders a Century and a Half of New Testament History in New Chronology

A New Testament Chronology connects biblical lives with Jewish, Roman, Greek, and Christian sources in a year-by-year account spanning 20 BC/BCE to 138 AD/CE.

Los Angeles, California Nov 12, 2026 (Issuewire.com**)** - John J. Breiling presents *A New Testament Chronology: Including the Lives of Jesus, Mary, Paul, and Apostles*, a year-by-year reconstruction of the New Testament era spanning 20 BC/BCE through 138 AD/CE. The book arranges nearly a century and a half of religious and political history into one connected sequence.

Rather than treating Gospel narratives and apostolic accounts as isolated episodes, Breiling places births, ministries, journeys, trials, deaths, and major historical developments alongside the emperors, procurators, and high priests who shaped the period. This chronological framework gives readers a clearer view of what occurred, where events unfolded, and how significant lives and institutions intersected.

For Jewish readers and researchers, the volume incorporates a substantial summary of Josephus

together with additional Jewish historical material. Christian audiences receive an overview of the lives of Jesus, Mary, the twelve apostles, and Paul. A daily account of Jesus' public ministry traces his encounters and his message of divine love through biblical material and private revelations.

Historians, Bible scholars, clergy, students, and independent researchers will also find coverage of major Roman, Greek, Jewish, and Christian sources. John J. Breiling draws from Josephus, Tacitus, Suetonius, Dio Cassius, Eusebius, Jerome, and other ancient writers, bringing multiple traditions into conversation within a unified timeline. The result is a reference making chronology accessible while preserving essential historical and spiritual context.

The book's structure supports devotional reading, historical study, classroom discussion, and comparative research. Its broad scope offers context for familiar passages while showing how political changes, religious leadership, and personal journeys developed across generations.
