New York City, New York Nov 18, 2026 (Issuewire.com) - **Sofia Alekseenko**, representing Kalmykia, won the **Super Model Universe 2026** international beauty pageant in Shenzhen, China. The competition ran from November 9 to 16 and brought together 35 contestants from around the world.

Throughout the week, contestants rehearsed group performances, gave presentations and interviews, took part in video shoots, and attended official receptions. The program also included sightseeing tours. The winner was announced during the finale, when the contestants took the stage in evening gowns.

Sofia paid tribute to her home republic in one of her stage appearances, wearing a traditional Kalmyk costume she had designed and made from scratch. The audience greeted her with applause. She plans to present the costume as a gift to her beloved city of Elista.

Sofia is an entrepreneur and the founder of a womenswear brand sold in more than six countries.

“My goal is to make the world more beautiful. Through my work, I design stylish clothes that help women feel confident. My company is built on the belief that every woman should be able to afford clothes like these,” Sofia says. “I believe beauty is a powerful force that can change the world for the better.”

Sofia spent more than three months preparing for the pageant. Her mentor was Maria Eroshenko, a professional international model and beauty pageant coach. Maria holds the titles of Mrs. Universe, Mrs. Europe, and Mrs. Russia and has coached contestants for international pageants since 2012.

“Sofia is one of the most disciplined contestants I've worked with over the years. She has a strong runway walk, and her outfits were beautifully chosen. What also sets a queen apart is her character, which comes through in the way she carries herself both onstage and in everyday life. I'm proud of Sofia, and I believe she earned this victory,” says Maria Eroshenko.
