LTP Cars Offers 24/7 Fixed-Fare Airport Transfers to All Six London Airports from Dagenham

The TfL-licensed private hire operator now covers Heathrow, Gatwick, Stansted, Luton, London City and Southend, with flight monitoring on every pickup and vehicles for up to 16 passengers.

Dagenham, Essex Nov 12, 2026 (Issuewire.com**)** - LTP Cars, a TfL-licensed private hire operator based in Dagenham, now provides 24/7 fixed-fare airport transfers to all six of London's main airports. The service gives travellers across Greater London and Essex a single, reliable way to reach Heathrow,

Gatwick, Stansted, Luton, London City and Southend, with flight monitoring on every pickup and fares agreed before the journey begins.

Airport travel from East London and Essex often involves several train changes, limited early-morning services and heavy luggage on busy platforms. LTP Cars aims to remove those problems by offering door-to-door journeys at any hour, including the early departures and late-night arrivals that public transport can struggle to cover.

Coverage across every London airport

The company's airport services include a Heathrow Airport Taxi for long-haul travellers and a Gatwick Airport Taxi for holidaymakers heading south. Travellers in Essex and East London can book a Stansted Airport Taxi for budget and early-morning flights, while North London customers can choose a Luton Airport Taxi. Business travellers are served by a London City Airport Taxi, and those who prefer a smaller airport can book a Southend Airport Taxi.

Vehicles for every group size

LTP Cars operates saloons, estate cars, executive saloons, MPVs and minibuses carrying up to 16 passengers, so solo travellers, families and larger groups can travel together with their luggage. Child seats are available in MPVs at £15 per seat, and every driver is professional and vetted.

"Our customers want to know three things before they travel: what it will cost, that the driver will be there and that they'll reach the airport on time," said Qazi Mumtaz Hussain of LTP Cars. "Fixed fares, flight monitoring and 24-hour availability across all six airports give them that certainty, whether they are flying from Heathrow at dawn or landing at Southend late at night."

Beyond the airport

Alongside airport transfers, LTP Cars provides London train station transfers, cruise port transfers, corporate travel, event transportation, wedding car hire and long-distance journeys from London to anywhere in the UK. Bookings can be made online, by phone or by WhatsApp.
