Massachusetts Mind Center Offers Personalized In-Person and Virtual Mental Health Care in Boston

The Boston practice brings therapy, medication management, genetic testing, medical marijuana services, and a ketamine program together under one roof, with weekday hours until 8:00 pm.

Boston, Massachusetts Nov 4, 2026 (Issuewire.com) - Massachusetts Mind Center, a mental health practice located on Commonwealth Avenue in Boston, is highlighting its range of personalized care options for adults seeking support for their mental health and overall well-being. The practice offers both in-person and virtual appointments, making it easier for patients across Massachusetts to access care that fits their schedules and needs.

Finding the right mental health support can feel overwhelming, especially when different services are spread across several providers. Massachusetts Mind Center was built to simplify that process by offering several complementary services in one place, all delivered with a focus on compassionate, evidence-based care.

A Range of Services Under One Roof

- **Therapy Services:** Individualized talk therapy that helps patients work through stress, anxiety, depression, life transitions, and other challenges in a supportive setting.

- **Medication Management:** Ongoing evaluation and adjustment of psychiatric medications, with regular follow-up to make sure treatment continues to fit each patient.
- **Genetic Testing:** Testing that can give clinicians additional information to help guide medication decisions for some patients.
- **Medical Marijuana Services:** Evaluations and guidance for patients interested in medical marijuana as part of their care, in line with Massachusetts regulations.
- **Ketamine Program:** A supervised, clinician-led ketamine-assisted treatment program for patients who may be appropriate candidates after a thorough evaluation.

Care That Fits Patients' Lives

Because work, school, and family commitments can make it hard to attend appointments, Massachusetts Mind Center offers extended weekday hours, Monday to Friday from 8:30 am to 8:00 pm. Patients can choose to visit the office at 50 Commonwealth Ave, Suite 2, in Boston's Back Bay neighborhood, or meet with their provider through secure virtual sessions from home.

Every treatment plan at the practice is tailored to the individual. Rather than offering a one-size-fits-all approach, the team takes time to understand each patient's history, goals, and preferences before recommending a course of care, and continues to adjust that plan as needs change.

Getting Started

Adults in the Boston area and throughout Massachusetts who are looking for mental health support can learn more about available services or request an appointment by visiting www.massmindcenter.com, calling (617) 236-2193, or emailing Info@MassMindCenter.com.

Updates from the practice are also shared on Instagram, Facebook, and LinkedIn.
