Mindcolor Autism Offers Center-Based ABA Therapy for Pflugerville Families

The Rowe Lane center serves children ages 2 to 9 from Pflugerville, Austin, Round Rock, Georgetown, Hutto and Taylor.

Pflugerville, Texas Nov 12, 2026 (Issuewire.com) - Mindcolor Autism is highlighting the ABA therapy services available at its Pflugerville center at 2300 Rowe Ln, Suite 101. The center works with children ages 2 to 9 and serves families from Pflugerville, Austin, Round Rock, Georgetown, Hutto and Taylor.

Applied behavior analysis (ABA) therapy uses individualized goals to help children build communication, social and daily living skills. The Pflugerville location provides center-based ABA therapy, so sessions take place at the clinic. A consistent setting gives children a predictable routine from one visit to the next, and parents know where and when each session will happen.

Along with ABA therapy, Mindcolor Autism offers diagnostic autism evaluations, M-CHAT-R autism screening, specialized programs and referrals. The intake team confirms eligibility and checks whether the center is in-network with each family's insurance before therapy begins, then submits therapy requests for approval.

For parents who are unsure where to begin, the M-CHAT-R is a short screening questionnaire for toddlers between 16 and 30 months old. A positive screen can lead to a diagnostic evaluation, and a diagnosis is often the first step toward insurance approval for ABA therapy. Mindcolor Autism can help families with each of these steps from one place.

The center is open Monday through Friday from 8:00 am to 6:00 pm. Families can get directions and read reviews for Mindcolor Autism Pflugerville on Google Maps, and they can learn more about ABA therapy in Pflugerville on the Mindcolor Autism website.
