Modern Word Search Offers Free Printable Word Searches From Easy to 100-Word Giant, Plus a Free Puzzle Maker

Themed puzzles with answer keys for US Letter and A4, and a no-account Word Search Maker, for teachers, families, seniors and puzzle fans.

New York City, New York Nov 20, 2026 (Issuewire.com) - **Modern Word Search** is a library of free printable word search puzzles for English-speaking solvers, with a focus on the United States. Every puzzle is built around a theme, is available as a ready-to-print PDF sized for both **US Letter and A4**, and includes an **answer key** on its own page. There is nothing to sign up for and nothing to install: open a puzzle, download the PDF and print it.

The site pairs a curated catalog with a free puzzle maker, so visitors can either pick a puzzle that is already made or build one with their own words in a few seconds.

Organized by season, holiday and topic

Collections are grouped so visitors can start from what interests them, from Thanksgiving and summer to science, animals and more. Every collection is listed on the **all categories** page, which includes a search box, and the **seasonal and holiday word searches** have their own hub.

Five difficulty levels

Most puzzles are published in several versions of the same theme, so a family or a classroom can pick the right level for each person:

- **Easy word searches** use fewer words and simple directions, for young children and first-time solvers.
- **Medium word searches** add diagonal directions, for most students and casual solvers.
- **Hard word searches** use more words and all eight directions, including backwards and diagonal.
- **Large print word searches** use bigger letters for comfortable reading, for seniors and low-vision readers.
- The **100-word Giant** hides 100 words in a single grid, several times the word count of Hard. Giant versions are available for selected themes, including Thanksgiving, Summer and the Periodic Table.

A free word search maker

The free **word search maker** lets anyone build a custom puzzle from their own word list. There is **no account and no waiting**: add the words, choose a difficulty and download a PDF with its answer key. Typical uses include spelling and vocabulary lists, party and wedding favors, and club or community events.

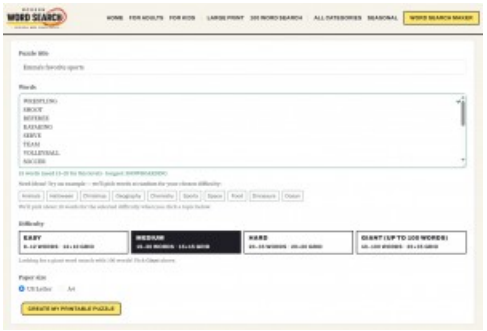

Who it is for

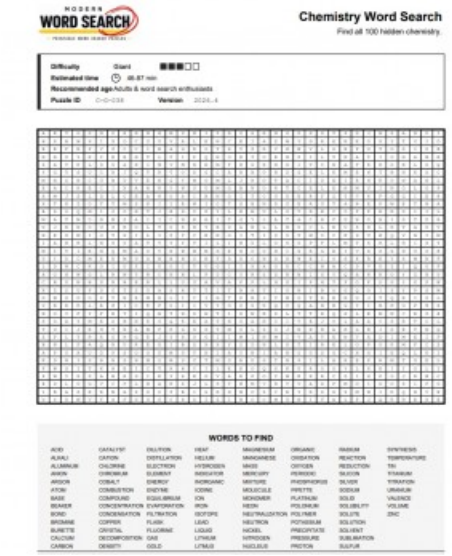

Teachers and homeschooling parents can use the puzzles for vocabulary practice, early finishers and holiday-week activities. Families can use them for screen-free time on road trips, in waiting rooms and on rainy afternoons. Activity directors and caregivers can print large print puzzles for seniors, and experienced solvers can take on Hard and Giant grids.

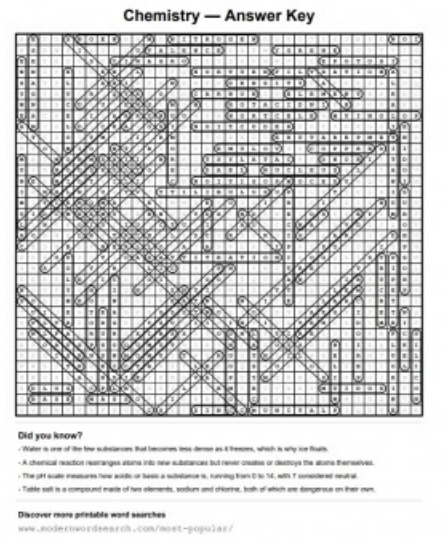

Reviewed and maintained by an editor

Puzzles are reviewed by an editor before publication, and each puzzle page shows who reviewed it and when. Word lists are written for the audience and kept free of overlapping words so the answer key is clear. Collections are refreshed as new puzzles and levels are added.

About Modern Word Search: Modern Word Search is published by Space Bits S.L. and edited by Ferran Sarrió. It offers free printable word search puzzles with answer keys in five levels, plus a free word search maker.
