Mumbai student Aditya Singh ranks first on University of Pavia's non-EU admissions list & Rank 22nd worldwide in IMAT

Singh scored 85.1 out of 90 on his first attempt and ranked first on Pavia's non-EU admissions list. He chose the Italian university after securing an MBBS seat through NEET in Navi Mumbai.

Mumbai, Maharashtra Nov 18, 2026 (Issuewire.com) - Aditya Singh had already secured an MBBS

seat at MGM Medical College in Navi Mumbai when his result in the 2026 International Medical Admission Test (IMAT) gave him a choice about where to study medicine. The Mumbai student scored **85.1 out of 90 on his first attempt** and earned a place in the University of Pavia's Harvey Medicine and Surgery programme in Italy. His score tied for **22nd worldwide** in an independent analysis of the published IMAT results by Locomotive.

Singh prepared for his medical entrance examinations alongside his Class 12 studies and took online classes through **Biomentors Online**. His NEET rank secured him a seat at MGM Medical College, close to home. Once he had a place at Pavia, he decided to give up the Navi Mumbai seat and begin his medical education in Italy.

According to his family, Singh placed **first on the University of Pavia's admissions list for non-EU candidates residing outside Italy**. The university publishes the list by candidate code and records 85.1 points for both its first- and second-ranked candidates. The worldwide tie for 22nd comes from a comparison of published IMAT scores across test centres.

Reflecting on his decision, Singh said he was drawn to Pavia by the chance to study alongside students from different countries and see how doctors care for patients in a different healthcare system. He said his long-term goal is to become a doctor his patients can trust and to earn the respect of colleagues internationally through the quality of his work.

The University of Pavia's **Harvey Medicine and Surgery programme** is a six-year degree taught in English. Students study subjects such as basic science and biochemistry before progressing through clinical training. The university lists San Matteo, Maugeri and Mondino among the hospitals and clinics where Harvey students can train.

Singh is the son of **Dr Geetendra Singh**, a Mumbai-based well-known physician, educator and entrepreneur who founded Biomentors Online, and **Bharti Singh**, a 2004-batch Indian Revenue Service officer currently serving as Commissioner of Income Tax in Mumbai.
