OneTouch Cleaners, Founded in 2023, Marks 1,000+ Google Reviews for House Cleaning in San Diego

San Diego, California Nov 19, 2026 (Issuewire.com) - OneTouch Cleaners, a locally owned company founded in 2023, says it has passed 1,000 Google reviews with a 4.9 average rating for house cleaning San Diego. The company, based at 1281 Ninth Ave in downtown San Diego, also provides move out cleaning San Diego, standard and deep house cleaning, move-in cleaning, apartment and office cleaning, Airbnb cleaning, and post-construction cleaning in San Diego County, including La Mesa, Chula Vista, La Jolla, and nearby communities.

The company was started with a stated focus on customer service as well as cleaning quality. Its published policies include a 72-hour re-clean guarantee: if a client is not satisfied with any item on the checklist, OneTouch says it will return within 72 hours to re-clean that area at no additional charge. Booking is offered online and by phone around the clock, and same-day appointments are advertised when a team is available. Clients who want a maid service San Diego team for a one-time visit or a recurring schedule can book online or by phone.

"We built OneTouch because too many cleaning companies treated the client as an afterthought," said Roohil Hamid, founder of OneTouch Cleaners. "The 1,000 Google reviews matter because they come from people who let our teams into their homes. We want that trust to show up in the work, the communication, and the fact that we will come back if something is not right."

According to the company, every cleaner is background-checked and bonded, and the business carries $2 million in liability insurance. OneTouch also states that it is BBB accredited with an A+ rating, uses eco-friendly products, and is not a national franchise. Service areas include San Diego, Chula Vista, La Mesa, El Cajon, Spring Valley, Santee, and other communities across the county. Homeowners can book house cleaning Chula Vista through the same online system used in the city of San Diego. East County residents can request house cleaning La Mesa or house cleaning El Cajon with an instant quote on the website.

Customers can get an instant quote or book a one-time or recurring clean at www.onetouchcleaners.com, or view the company's Google Business Profile, OneTouch Cleaners – San Diego, at this Google listing. The company says prices are quoted upfront, with no long-term contract, and that clients may reschedule or cancel at no charge with at least 24 hours' notice. Residents who need a holiday or year-end deep clean, a move-out clean, or a regular schedule can book online or call the office.
