RankMyShopify Launches AI Search Optimization to Help Shopify Brands Get Found on Google and in AI Answers

RankMyShopify, a Shopify-exclusive agency, launches AI search optimization to help ecommerce brands rank on Google and in AI answers.

Mohali, Punjab Nov 16, 2026 (Issuewire.com) - RankMyShopify (https://www.rankmyshopify.com), a Shopify-exclusive SEO and digital marketing agency, today announced its AI search optimization service, designed to help ecommerce brands appear in Google results and in answers from AI search tools.

More shoppers now research products through AI-powered search. Many Shopify stores are missing from those answers because of thin product details, duplicate descriptions, weak structured data and technical SEO gaps.

“Shopify store owners need to be found wherever their customers search,” said a Mandeep Singh Founder, RankMyShopify. “Because we work only with Shopify, we know how to fix the platform-specific issues that hold stores back, from duplicate URLs and canonical tags to product page content and site speed.”

The service includes:

- Shopify SEO audits covering technical issues, indexing, broken links and canonical tags
- Product and collection page optimization with unique, detailed content
- Meta title and description optimization at scale
- Structured data and content improvements that help AI tools understand and cite a store
- Link building and content marketing to build authority

RankMyShopify also offers Google Ads, Meta Ads and conversion rate optimization, so brands can manage search, paid media and on-site performance with one specialist team.
