Sign Made Easy Shines as a SourceForge Fall 2026 Category Top Performer Award

Thornhill, Ontario Nov 9, 2026 (Issuewire.com**)** - Sign Made Easy, a Salesforce-native eSignature solution by HIC Global Solutions, has been recognized as a Fall 2026 Category Top Performer by SourceForge, one of the world's largest software review and comparison platforms.

This recognition highlights the positive feedback Sign Made Easy has received from its users and its commitment to simplifying digital document signing for businesses. The SourceForge Category Top Performer Award recognizes products that have received strong recent user reviews, placing Sign Made Easy among the top-performing products across more than 100,000 listings on the platform.

"We're honored to receive the SourceForge Fall 2026 Category Top Performer Award. This recognition reflects the trust our customers place in Sign Made Easy and our team's continued efforts to simplify document signing and automate business workflows. We sincerely thank our customers for their valuable feedback and continued support."

— Piyush Singhal, Co-founder & CEO – HIC Global Solutions

Sign Made Easy enables businesses to send, sign, and manage digital documents directly within Salesforce. With features such as reusable templates, bulk signing, OTP authentication, audit trails, digital document seals, and AI-powered document summarization, businesses can streamline their signing processes while maintaining visibility and control over document workflows.

Designed to support different business requirements, Sign Made Easy also offers multilingual signing capabilities, WhatsApp and SMS notifications, and integration with Salesforce workflows, helping teams manage their document signing activities more efficiently.

This recognition marks another milestone for Sign Made Easy as it continues to strengthen its position as a trusted eSignature solution for Salesforce users.

About Sign Made Easy

Sign Made Easy is a Salesforce-native eSignature solution designed to simplify digital document signing and automate eSignature workflows. Businesses can send documents for signatures, track signing progress, manage reusable templates, and maintain detailed audit trails without leaving Salesforce.

With features such as bulk signing, OTP authentication, digital document seals, and AI-powered document summarization, Sign Made Easy helps organizations manage their signing processes securely and efficiently.
