Solaire Resort Awarded with Forbes Travel Guide VERIFIED™ Responsible Hospitality Badge

Quezon City, Metropolitan Manila Area Nov 25, 2026 (Issuewire.com) - Solaire Resort has been accredited with a VERIFIED™ Responsible Hospitality badge from Forbes Travel Guide, with Solaire Resort Entertainment City securing the certification for the second time, and Solaire Resort Quezon City receiving its first in its second year of operations. Through this recognition, the promise of luxury, hospitality, and a new standard of refinement remains guaranteed for Solaire's guests, workforce, and its own community.

The unique accolade reaffirms Solaire's service philosophy that embraces a balance between excellence, luxury experiences, and responsible business practices. Properties that meet over 100 of Forbes Travel Guide's meticulous standards that support environmental responsibility and the welfare of its employees and patrons alike are listed as candidates for the prestigious award.

In pursuit of responsible and ethical practices, Solaire Resort Entertainment City's initiatives include its PhilGAP-certified on-site herb and greenhouse operation, supplying fresh ingredients to its culinary venues. Similarly, through Solaire Cares, both properties remain dedicated to supporting food security

and social development through partnerships with their respective local governments in Parañaque and Quezon City, with the goal of creating meaningful and lasting community impact.

For Solaire Resort Quezon City, collaborations with the Quezon City Government and Quezon City University launched the Solaire Hospitality Academy, a program designed to develop a skilled hospitality workforce and expand access to employment opportunities for the locale. Solaire Resort Quezon City continues supporting its community through various Corporate Social Responsibility programs and initiatives by Solaire Cares, through repurposing and upcycling hotel linens and uniforms for the Quezon City locals.

Within the property itself, Solaire Resort Quezon City observes environmentally conscious procedures in overall service engagements, prioritizing sustainability in each guest interaction. For guest stays, engineering teams develop systems to optimize energy and water usage in rooms, while housekeeping teams opt for environmentally safe supplies for the total upkeep of rooms and communal spaces. Internal policies also ensure that the resort's team members reflect responsible practices throughout, such as proper waste segregation and recycling for a holistic approach to sustainability.

Environmental responsibility remains a necessary pillar in Solaire's resort operations, with efforts across the organization addressing resource efficiency, waste management, climate-risk preparedness, and strong regulatory compliance. Organizational efforts currently highlight sectors of energy and water sectors and waste management, with recent alignments on local government initiatives such as regular International Coastal Cleanups in partnership with the Department of Environment and Natural Resources.

Across five exclusive luxury properties in Manila, Solaire establishes its two properties amongst exclusive hospitality names in the Philippines, and alongside around 400 international hotels, further guaranteeing the elite caliber of service the integrated resort offers its guests, its team, and its community.
