Stress-Free Painting & Design Announces Fall Painting Offers in Beaumont Through December 31

The company’s Google Business Profile lists $315 standard-room painting labor and a separate $50 discount on qualifying painting projects of $500 or more.

Beaumont, California Nov 13, 2026 (Issuewire.com) - Stress-Free Painting & Design, a house painter in Beaumont, CA, has announced its official fall painting promotions for customers planning local projects. The offers are available for bookings made by December 31, 2026, or until the season's schedule fills, whichever comes first.

The fall room special reduces standard room painting labor by 10 percent, from $350 to $315. It applies to standard rooms approximately 10 by 12 feet or 10 by 15 feet, or similar floor areas of about 120 to 150 square feet. Molding and crown molding are excluded. The advertised $315 price is for labor, not an all-inclusive room-painting price.

A separate promotion provides $50 off painting projects totaling $500 or more before the discount. All painting services qualify for this offer. Customers should check directly with the business for booking availability and project timing.

Customers may choose one offer per project; the promotions cannot be combined. Those requesting a free estimate should mention either the fall room special or the $50 offer so the company can confirm the applicable promotion and project scope.

Stress-Free Painting & Design provides residential and commercial painting services, including interior and exterior painting. More information and estimate requests are available at https://stressfreepainting.com
